

## SERVICES AND CONSULTING

### Incentage delivers the power of controlled STP.

Out of ten thousand messages, how many can you afford to lose or miss? With Incentage, this is a question you never have to ask. Stay connected. Straight through with full control. All the time.

Trust your instincts  
but insist on safety.

### Incentage Premium Analysis Passport

### How Incentage can help to meet your IT budget without making compromises in terms of performance and risks

- Reached the limit of your performance capacity and scalability?
- Stability and reliability of your applications - everything under control?
- Increasing maintenance costs and IT infrastructure complexity?
- Know if messages are late, queues are building up, message traffic jams creating havoc, or if there are "non events"?
- Potential for streamlining and cost savings?
- Benchmarking your messaging processes and infrastructure against your competitors?

Incentage handles a large variety of major projects a year, and with maintenance responsibility for over 150 clients Incentage specialists possess a large inventory of firsthand account experience on how messaging infrastructure should - or should not - be managed. It is surprising to find an extremely wide range of efficiency among messaging infrastructures around the world. Establishing best practices among messaging infrastructures is geared to bring quick wins and to establish long term flexibility, efficiency and cost leadership.

#### Solution: Incentage Premium Analysis Passport

Incentage offers a fix price subscription package, the "Incentage Premium Analysis Passport", which includes a pro-active technical and business analysis of the customer's messaging infrastructure. The analysis will be conducted onsite and offsite the customer premises 3 times over a period of 2 days, with each 2 days independent of the other periods. Interactive discussions, a final presentation to management and a final report make sure that analysis work, risk evaluation, potential quick wins, technical, business and architecture recommendations, efforts and possible next steps are communicated at the appropriate levels of customer management.

Prepare for the worst ... and hope for the best. Incentage helps you with maximal preparation for stormy economic weather forecasts.
